The screenshot shows the Visual Studio Code editor interface. The top bar indicates the active file is 'styles\_76.scss' in a workspace named '111-web-demo-76'. The editor has two main panes. The left pane shows the 'styles\_76.scss' file with SCSS code for a grid system, including mixins for text, 80%, 70%, and 60% widths. The right pane shows another SCSS file with code for a skill container and value. The bottom panel contains the 'TERMINAL' tab, which displays the output of the 'sass' command, showing that the SCSS files have been successfully compiled to CSS files. The status bar at the bottom shows the current file is 'main.scss', line 557, column 18, with 2 spaces, UTF-8 encoding, and CR/LF line endings. The system tray at the very bottom shows the date and time as 12/17/2022, 08:26.

W15-P5: 完成 timeline 時間軸

The image shows a web browser window at the top and a Visual Studio Code editor window at the bottom. The browser displays a page titled "Timeline" with two entries for the years 2020 and 2019. The 2020 entry is highlighted with a yellow circle containing the number 1, and the 2019 entry is highlighted with a yellow circle containing the number 2. The CSS code in the editor is organized into two panels. The left panel shows the CSS for the timeline items, and the right panel shows the CSS for the numbers. The code is written in SCSS and includes variables for colors and fonts.
