

The screenshot displays a web development workflow. On the left, a code editor shows the HTML structure of a portfolio page. A red box highlights the navigation links for projects 1, 2, 3, and 4, which all point to 'projects\_76.html' with different class attributes. The middle section shows a browser preview of the 'JohnDoe' portfolio, displaying the first project with a title, client name, and an image. The right section shows the CSS inspector, with a red box highlighting the 'a' element's class attribute, which is 'project-1'. The bottom right shows the 'Styles' panel, displaying the default browser styles for the 'a' element, including 'border', 'padding', and 'margin'.
